

Planning / Reporting /  
Consolidation /  
Processes / CRM

Actinium Consulting GmbH

We combine sound business knowledge and IT know-how with extensive expertise in optimising business management to deliver cogent business intelligence solutions. Our comprehensive service covers all project phases from consulting and evaluation to conception and implementation, and the guiding principle throughout is simplicity. You benefit from rapid, calculable project development and the application of best-practice models for solutions and project management.

We also provide a solid foundation for sustainable and expandable solutions. As a vendor-independent consulting company, we make sure that your BI solution remains flexible and open. BI consulting includes

all aspects from business performance management (BPM), data warehousing, consolidation, ad hoc analyses, reporting and management information systems (MIS) to planning, budgeting and simulation. It also includes the appropriate choice of tools.

Founded in 1999, Actinium Consulting GmbH is an international consulting agency with head offices in Lindau, Germany and Vienna, Austria and project offices in Stuttgart, Dortmund, Graz, Balgach, London and Singapore. Our clients include Thyssen Krupp Nirosta, Ravensburger, ALPLA, Nokia, Süddeutscher Verlag, T-Systems, Krombacher, Österreichischer Rundfunk, Falkensteiner Michaeler Tourism Group and other well-known companies.
